## EXPLORATION IN COLOUR

**This free six week course** explores one colour each week.

Using paint we will study the range and application of one colour and it's impact.

At the end of the course all the artwork will be brought together creating one large installation, and by doing so bring together the spirit of collective creativity.

The installation will be exhibited in the Billiard Room at the Pearce Institute as part of the 'Kandinsky in Govan: Art, Spirituality & the Future' weekend being held at the Pearce Institute **21- 23 October** by the Centre for Human Ecology as part of the Govan Folk University. Full conference details at [www.GovanFolkUniversity.org](http://www.GovanFolkUniversity.org)

Classes will be held at **Kinning Park Community Centre, 43 Cornwall Street, G41 1AH** starting **8th September** 2-4 pm and 6-8.pm

Spaces are limited to 10 people per class.
